Dear ERIC Contributor,

The Education Resources Information Center (ERIC), on behalf of the Institute of Education Sciences (IES) of the U.S. Department of Education, is reformatting its collection of previously submitted papers, reports and documents from microfiche format to digital (go to: www.eric.ed.gov and click on ERIC Microfiche Digitization for more information).

As an author, publisher or sponsor, ERIC seeks your permission to post and disseminate digital copies of your documents. In the case of a work of joint authorship, approval by any one of the contributors/authors is sufficient. As with all ERIC content, access to these documents will be free and open to the general public through the ERIC database (www.eric.ed.gov).

The following link provides a listing of those documents that have been previously submitted to ERIC by you or your organization. Please click on the link to go the ERIC Online Permission Form. Review the listing of documents, mark each document where you are granting permission, and click on the 'Submit' button to complete the process.

As an alternative we have attached a spreadsheet file with the same information. Please review the list and mark all the documents where you grant permission for ERIC to post a digital copy. Once you have verified the information in the spreadsheet and made any changes, please email the updated spreadsheet to:

Boss,

We are coming up on another big decision on the PA request for reconsideration. The commissioners are leaning in one direction, but would like to talk to you this weekend. They are headed to DC Tuesday and Pat is traveling Monday, so they are requesting some of your time on Saturday or Sunday to have a teleconference. Is that something that can work for you? If so, is there anybody besides myself, Tibbles, and Marty that you want involved? Remember that we had the Lt Gov involved last time.

Frank,

When I said that we had decided a few months back not to respond to a letter that was extremely confrontational, I was referring to one particular letter from this same group of folks that we received back in April. At that time, I thought it was better to call them directly and try to reassure them about their concerns than draft a written response. Sometimes a phone call and some personal contact goes a long way with fishermen and is more effective than a written response. As I said, I plan to deal with this letter in the same way.

I just didn't want you to have the impression that we have a policy of not responding to letters that have a confrontational tone. I just meant that sometimes if I get a letter like that, particularly from these guys, I just call instead.

Thanks!

Cora

I spoke with Cora today re: Paul Schadura of the Penninsula who approached you at the Capt Cook event. She's working on a response to him and will deliver it via phone rather than in writing.

The tone of the letter had folks in Juneau scratching their heads as to how (or whether) to respond productively.

As far as not receiving a response, there was an informal decision made some months back not to respond to folks who spoke in a rough term about the Governor or the Administration. I expressed my opinion keeping the communication lines open is best, regardless of the tone.

Subject: Invitation to McNeil River Bear Sanctuary

Governor:

Based on some previous discussions, I'm extending an invitation for you, Tod, and two guests (e.g., your parents) to visit the McNeil River Bear Sanctuary this coming summer.

There are preferred dates, given the seasonal behavior of bears around the falls. Also, access is strictly controlled through allowable numbers of people permitted in the area at any one time, in order to provide predictable human presence to the local bears. Most permits are issued to the public through an application and drawing process. I am allowed, however, to issue a limited number of permits on my own authority for special purposes.

Given all this, there are two time periods that it would be best for you to choose from: July 25-28 (preferred) or July 13-16.

Also, because I am limited to issuing only three permits at any one time, we would have to designate you (or Tod) as state staff, in order to keep total group size to the control levels.

You could pick one or the other of these time periods, and you could stay for the full four days or some smaller portion thereof. Logistics center around flying out of Homer via small plane; also, conditions are rustic (tents or perhaps the tool shed for lodging; camp cooking). We can plan all this for you.

Please let me know if you'd like to make this trip. If you don't, I'd also like to know, so that I can issue these permit slots to other potential parties.

I think you would very much enjoy this trip, and we'd be proud to showcase our premier wildlife viewing project to you and your family.

Thanks, DL.

Dear Honorable Governor Palin,

I hope you had an opportunity to look over the Native Issues calendared dates and consider our invitation to be one of our featured speakers this legislative season. Here is that invite:

On behalf of Central Council of Tlingit and Haida Indian Tribes of Alaska Office of the President we hereby request your presence and participation as one of our featured speakers for 2008 Native Issues Forum this legislative season. The forum is scheduled at the ANB Hall located at 320 West Willoughby Avenue here in Juneau. The Native Issues Forum begins approximately at 11:45 AM with a homemade delicious lunch and we would love to offer you a courtesy lunch. This is a popular forum that brings together 125-250 people at a time.

If you can speak your topic can concentrate on the different issues that you are addressing this legislative session, promoting any cause that you would like community participation in and/or your work and involvement with Native entities. There will be a question period available for guests present immediately following and the forum will conclude approximately at 1:00 PM.

We are proud of our continuing partnership with our Alaska Native Brotherhood Camp 2 in being able to provide this popular open forum to the public. The continued support from our legislators and local community organizations that make the time to be part of this is very important and meaningful; with State and Government involvement we can look forward to another successful year!

Here is the calendar for Native Issues Forum this year (see Open for available dates):

- January 16, 2008 Superior Court Judge Philip Pallenberg

& Senator Kim Elton

- January 30, 2008 Senator Bettye Davis - Open
- February 13, 2008 Senior Direct Valerie Davidson, Alaska Native Tribal Health Consortium - Open
- February 27, 2008 Open
- March 12, 2008 Open
- March 26, 2008 Tentative: Congressman Donald Young & Senator Lisa Murkowski
- April 9, 2008 Senator Albert Kookesh - Open

Please contact me at your earliest convenience if you can be a featured speaker and the date you selected. Once we can confirm this then I will need a recent photo and bio from you for our program. You are welcome to bring any handouts for distribution. Thank you for your continued support and we look forward to seeing you!

Honorable Governor Palin:

This email is in response to my earlier email request and to follow-up on my written request to your office to include within your budget 11 million dollars for the Reynolds Creek Hydroelectric Project. I am currently in Juneau seeking funding for the Reynolds Creek Hydroelectric project and I have had productive and receptive meetings with your special assistants and commissioners. I have met with Commissioner Notti, Mike Black, Joe Balush, Lynne Smith and Joellen Hanrahan. I would like to commend them for their efforts in listening to the rural concerns and providing me with the opportunity to work towards making our communities on Prince of Wales viable economic entities.

I would like to add Karen Rehfeld's staff has gone above and beyond in their response to my requests. While I was frustrated with actually meeting with Karen her staff has accommodated my requests. I would like to let you know I owe a personnel thank you to Joeleen Hanrahan, OMB's Management Analyst.

I have hand delivered my request to your office in a letter dated January 15, 2008 with a copy to OMB, Commissioner Notti, Joe Balush and my local legislators.

In closing, Governor Palin, I want to extend a special invitation for you to attend the village of Hydaburg's summit, March 28, 2008, Friday, in Hydaburg, titled "Strategies to Promote Economic Development and Capacity Building". I am excited to extend this invitation because my daughter Marissa Edenshaw, who attends Mt. Edgecumbe, and who has met with you on energy concerns, will be co-hosting as a state-wide student government representative. I asked Marissa how I could get you to attend and she said to ask you. Please accept this as my personal invitation.

I am going to keep working diligently to have the Reynolds Creek Project funded. This is our future economic hope for my children, for my community and for the entire Prince of Wales island. I do not believe the timing or the opportunity for our community to obtain funding to make our island a viable economic center will happen without your help this session. The politics are thick and I'm not a politician. I am simply a person trying to make a change in my community and for the future of my children's children.

I hope to hear from you personally, Sarah, as this is the only way I know to communicate with you.

Please give me a call at 907 229 1540 so I can speak to you.

Hawaa--Thank you.

ENI just let us know that they have sanctioned the Nikaitchuk project. This includes new facilities and aprox. $1.5 Billion investment. They have asked that we keep it confidential until they can get their press release out - probably tomorrow.

Remember DNR evaluated this project and granted royalty relief based on technical and commercial information. We received "no" comments during the public comment period.

Hope you are having a good trip. God bless. Tom

I know just about all the folks in the city of Yakutat. The good folks have mentioned over and over that the Sea Otter population is out of control....they have noticed that all of the normal traditional foods (clams,crabs,mussels,sea urchin, herring eggs)are becoming very scarces.Their complaints/concerns about the Yakutat Bay Sea Otter situation, fell on deaf ears in the previous State Administration. Hopefully, your Adminstration is more attuned to the needs of subsistence users. This State controls the wolf numbers,in order to help manage their food source (moose), and this State controls the bison numbers,otherwise the bison would depleat their food source. Further; this State destroys whole islands of cattle,to protect bird nests...so, why cann,t this State take control of the Sea Otter population to protect the Otte

MESSAGE:

Dear Governor Palin:

My name is Cheryl Meunier. I am an English teacher and Journalism teacher at Kodiak Middle School in Kodiak, Alaska. I started and produce a school newspaper with students called the Brown Bear Bugle. We would like to interview you and your middle school daughter for our end-of-year issue. We would like to focus on the relationships between mothers and daughters.

I would like to send you our last issue via email so that you may review our newspaper. If you have an address I can attach the issue to I believe you would be impressed with what middle school students are producing.

We can send interview questions so that you can review them. If you chose to do so we can set up a phone conference or you and your daughter may chose to answer the questions via email.

We look forward to your response and are excited about the possibility of writing such an interview.

Sincerely,

Cheryl Meunier

## The Marriage Gap

**Kay Hymowitz**, Cato Unbound, January 16, 2008

Let me begin with a slightly different description than the one given by Stephanie Coontz of where we are marriage-wise in the United States today. She alludes to the fact that almost half of all marriages end in divorce. She also points out that close to 40% of children - 38% - are born to unmarried mothers. What she does not mention is that there is a yawning class divide hidden inside these numbers. The large majority of individuals who are divorced or who are never-married parents are low-income and lacking a college, and in many cases a high school, degree. The large majority of middle-class men and women, on the other hand, marry before having children and stay married while raising them. When she assures us that marriage is not on the verge of extinction, she's right - if you're white and went to college. . .

I Pray That Sacrilege Is Protected

Posted by William Felkner

Rhode Island College received national attention recently when the student newspaper published a cartoon depicting Jesus as the perfect roommate complete with smelly feet, turning water into wine like a card-trick at the weekly keg party. Many people objected but the College was correct to say that they wouldn't restrict the student's first amendment rights. At the University of Wisconsin in Eau Claire, a Christian group was barred from discussing the bible in a dorm room. It's ironic that in a country where the cardinal sin of state schools is saying prayers, sacrilege is still protected. How did this happen? . . .

Sincerely,

Hi -

]

Let me introduce myself. My name is Glenn N. Wachter and I reside in Blaine, MN, a northern suburb of Minneapolis, MN.

I'm writing for a couple of reasons. One is that I am proud to say that I have a son practicing medicine in Anchorage working for the Native American Hospital. At first we didn't think he would take a liking to Alaska, it's scenery and outdoor posibilities but after spending a few winters in Anchorage I can now say that I think he is there to stay!

Bryan has had the opportunity to travel some to the hinterlands of Alaska treating the sick. This has given him valuable experience learning about the local native customs, work opportunies and shortcomings with a changing environment.

I most recently read the article in the Feb 08 copy of the ALASKAN MAGAZINE on Gov Sarah Palin and was impressed with her down to basics style of being a Governor! If possible I would welcome the opportunity for Bryan to meet the Governor sometime at her

convenience...maybe just over a cup of coffee. I would like for this to be a surprise since I know he would be upset with me if he knew I had planned this encounter! Maybe it could be said to him that his name was mentioned of someone who would like the opportunity to meet the Govenor of the state of Alaska!

In closing, thanks for a listening ear and I wish the best for Governor Palin and the State of Alaska.

Sincerely,

Glenn N. Wachter

Hello Governor Palin -

Sorry to bother you today but I wanted to take a moment to let you know that I will be moving to Juneau the first of April (the end of your legislative session) for the upcoming summer through September of 2008. The reason is to have an exciting adventure in Alaska since my retirement from Hormel Foods. The job will entail driving a tour bus for Princess Cruise lines for visitors excursions.

Since accepting this job I have been reading up on Alaska and the Alaskan history to be better prepared at informing our visitors of all what Alaska has to offer.

The main reason I am writing to you is to let you know that I am very impressed with you, your responsible conservative agenda, your family and the dedication you have for your family and job.

With knowing the fact that you are very busy, It still would be a pleasure to get the opportunity to meet you (if only for a picture) and your family while I'm in your fine state and say Hello. I'll cook!!! I know I would make ya all laugh - at the very least.

Take Care and Thanks for your attention Governor.

God Bless.

Let me ask Kris about the sub for world trade. I think I'm doing one in Juneau on that same day - Kate should share some of your talking pts w/ Kris so she can get them to beth/sharon so we've got a coordinated msg on trade. Thanks

Hi,

Sorry to bother you, but I just got an email from Privilege saying Privileged or Personal next Wed in Seattle, he's plainly concerned and asked if I could be there with him. He's never done that before and I told him that of course I would.

I'm going to need to meet with you (and Mike) on 50hp regs before I go as I can have a recommended way forward for you and legislators are starting to ask. I've circled back around since we last talked, spoken with your commissioners again, and the water quality expert at DEC, and we're waiting on one answer fr Law but should be ready to talk Mon or Tues. I've asked for the meeting through Janice for early in the week. May have to do by phone.

Also, I had subbed in for you on a World Trade Center speech on Wed, the day of Privile Privilege, that I'll have to back out of--Kate's been working on. Any suggestions on a next choice, Privi???

I think I'm going to go to Seattle Tues and come back Thurs or Fri assuming all goes well. Just wanted to let you know of my change in plans for next week.

Hello Albert,

You received a letter from me in September stating concerns about several issues, among them the appearance of misuse of federal funds. The issue obviously is not at the top of your priority list since I have not received a reply nor have further inquiries been sought. After the first of the year, my plan is to share my findings (supported with documentation) with the Anchorage Daily News, so they can investigate the matter.

You also have not addressed the Sealaska land lease to the group who are alledgely using federal funds for personal gain; and the gate issue.

You have three issues at hand:
1. Misuse of federal lands (alledged)
2. Sealaska land lease to the group misusing federal funds (alledged).
3. The gate on Sealaska property erected by a non-shareholder.

These are the three most pressing issues as stated in the letter sent to you in September. There were other concerns - but these are the ones I want addressed soon.

As State Senator, you have the responsibility to address the issue of federal fraud. As Chairman of Sealaska Board, you have responsibility to the shareholders.

Please let me know your plans so that I may plan accordingly.

Sincerely,

Just a heads up that Rep. Seaton came to see me yesterday with his Community Dividend Proposal. He's going to introduce soon if he hasn't already. Basically, he wants to take 1.5 billion of this year's surplus and set it aside in a special account of the Perm Fund (Amerada Hess was) and spin off 5% of the interest as a dividend to communities.

I listened and had a discussion with him about how the surplus will generate lots of ideas about how to save and spend it. We discussed how there's going to have to be a process whereby the governor and legislature have the opportunity to set these priorities together via legislation, budgets, etc. I also pointed to the governor's proposals for sustainable funding of priorities like the transportation/infrastructure fund and the alternative energy fund. I didn't provide any comment one way or other about his proposal, just listened and took it in. Just for your FYI.

CONFIDENTIAL

Dear Governor Palin,

I just met with Randy Ruaro for a follow up meeting on the law school concept. In the meantime I had called John Havelock. I had placed a call to Havelock right after former Governor Hickel and his group had met with us because Havelock's 1974 study and conclusion that a law school was inadvisable had been referenced. The next day the Daily News ran a Havelock column, which you may have seen, that endorsed a law school. I thought the article was possibly a coordinated effort with former Governor Hickel, it was not. When I did get in touch with Havelock he expressed surprise at the Hickel group's effort and was unaware of it. He was aware of Regent Wickersham's interest in the topic.

Havelock has changed his mind from 1974. He now believes a law school is appropriate for Alaska. He does not endorse the Hickel private law school scenario.

There are at least three people who are promoting an Alaska law school. They are apparently uncoordinated:

1) Hickel and Aglieti want to pursue a private law school. They claim they seek no state money just an endorsement. They believe opposition from us will end their effort.
2) Havelock advocates for a state run law school, through the University. It would cost a lot, he did not know for sure how much, but when I asked about the Aglieti estimate of $40,000,000 Havelock thought that was plausible.
3) Wickersham would like a law school through the University of Alaska. It is unclear if his position has any traction with the regents of which he is one. If pursued it would be a cost probably near the referenced $40,000,000, which is that large because buildings and facilities would be a component.
